Monday,  
September 8, 1969

SALE STARTS AT 11:00 A.M.

*At the farm near*  
**Big Rock, Illinois**

WITH GUEST CONSIGNMENTS FROM

SHORE ACRES

WERNACRES

PRAIRIE CREEK

This is how Remitall  
Captain Jim looks on  
pasture at Melbourne  
Farm as a four-year-old.

Here's the team that keeps tab on the large farming operation at Melbourne. From left are, John Alexander, Sr., John Alexander, Jr., and manager Paul Potter.

Accepting one of the many trophies for the Melbourne Shorthorns are, from left, Mrs. John Alexander, Jr., and Mrs. John Alexander, Sr. Both maintain a lively interest in the herd.

## Welcome to Melbourne

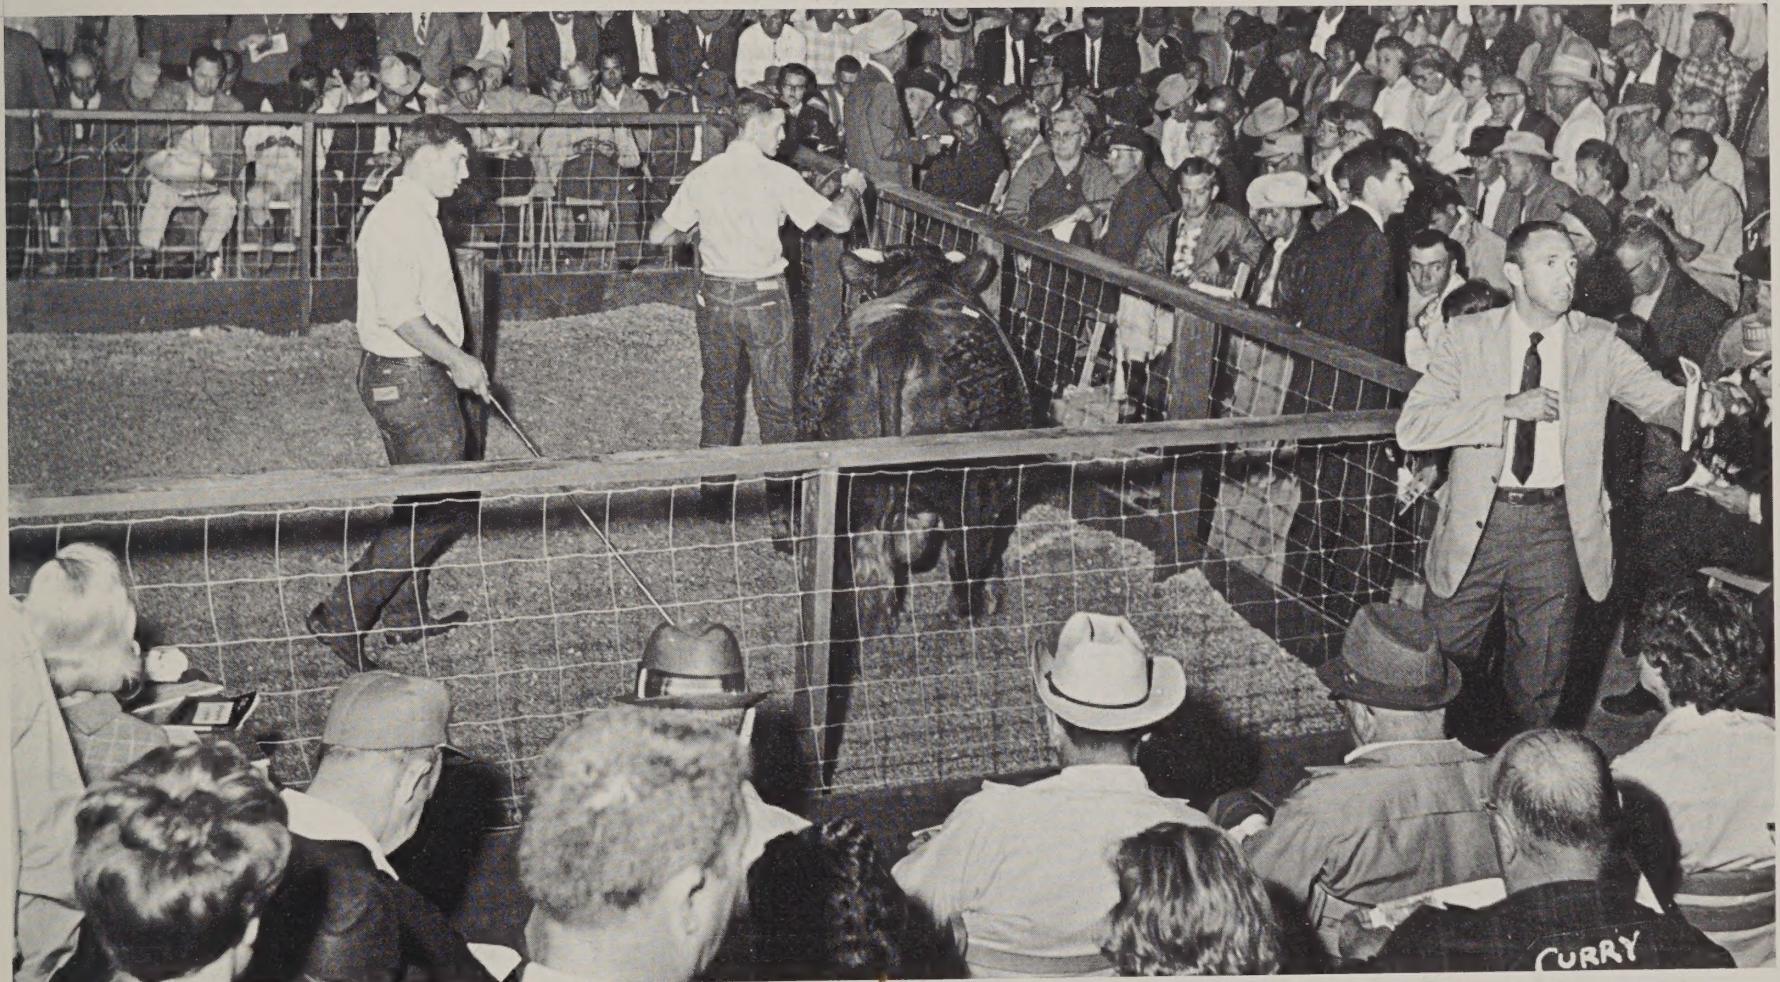

Each member of the Alexander family looks forward to welcoming you to Melbourne in person on September 8.

There have been many changes in the beef cattle business in the last few years and we hope you'll find Melbourne to be a far-sighted partner with you in this progress. We are particularly proud of the two-year-old daughters of Remitall Captain Jim that are retained in the cow herd, along with the first calves by Remitall Gold Emblem. Arrive early so we can show each one to you personally.

It is always a pleasure to be joined in this sale by our good friends from Prairie Creek, Shore Acres and Wernacres. They are selling the best of their year's production. We recommend their cattle as we do our own. There are brood cows at Melbourne from each of their herds and they have performed well for us.

We're counting on you for buffet dinner on the lawn of our home the night before the sale.

**John Alexander**

Shorthorn and Polled Shorthorn breeders from throughout North America jam the sale barn at the 1968 Melbourne sale, where the first sons of Remitall Captain Jim averaged \$1,740. Will you be part of the action this year?

## GENERAL SALE INFORMATION

**LOCATION** — Melbourne Farm, a mile and a half south of Big Rock, Ill., on Jericho Road. Big Rock is 10 miles west of Aurora, Ill. on U.S. 30. Melbourne is five miles west of the west end of the East-West tollway which connects directly with all major toll roads leading east through Indiana and Ohio. Those coming from the East should take the East-West tollway to Route 47, then south to Jericho Road and west to the farm. Melbourne is 20 miles north of Interstate 80, the major expressway which leads west through Iowa and Nebraska. From Interstate 80 exit on Illinois 47 and go north about 20 miles to Jericho Road. Then west on Jericho Road to the farm.

**TIME** — 11 A.M., C.D.T. Monday, September 8, 1969.

**LUNCH** — Will be available from 9 a.m. to 11 a.m. sale day.

**TELEPHONES** — Paul Potter: (312) 556-3431. (Use this phone sale day)  
Eddie Mackie: (312) 556-3387.

**BREEDING DATES** — A list showing service dates will be provided sale day. All information from the auction block takes precedence over data in the catalog.

**GUARANTEE** — All cattle in this sale are sold under Standard Guarantee endorsed by the American Shorthorn Ass'n. A condition of this guarantee is that notices of failure to breed must reach the seller within 6 months of the sale. Shipment will be made as soon as possible after sale, but all stock is at buyer's risk as soon as bid off. Every precaution will be taken to see that animals arrive in sound condition. The terms of this sale are cash. Settlements to be made with clerk at the conclusion of the auction.

**HEALTH** — All cattle sold in this sale will comply with Illinois health regulations and health certificates will be provided with each lot sold. Official calfhood vaccination for Bang's is practiced in all of the herds consigning. All cattle have either been vaccinated or will have passed the Bang's test within 30 days of sale. A 60 day T.B. retest will be allowed. The Melbourne herd is Certified for Brucellosis and Accredited for Tuberculosis. Due to conflicting health requirements among the various states, Melbourne stopped calfhood vaccinating females for brucellosis with females born after April 1, 1968. There are six in the sale that are not vaccinated. They are Lots 14, 15, 18, 28, 53, 59. Of course each will have passed a negative brucellosis blood test.

**LIABILITY** — The above guarantee and terms shall constitute a contract between the seller and buyer of each lot. Those working on the sale have been employed by the sellers for specific promotional and clerical tasks not connected with the condition of the premises and accept no liability for the contract

or accident that may occur. Where footnotes appear in this catalog, they were furnished by the owners. The owners will not be responsible for any accidents, but will make every effort to provide for the safety and comfort of those attending.

**TRANSPORTATION** — Aurora is on the main line of the C B & Q railroad with direct trains from Minneapolis, Omaha, Denver and Kansas City. Other train passengers should go to Chicago from which rapid suburban service is available to Aurora hourly. Melbourne is about an hour's drive via the Tri-State and East-West tollways from O'Hare International airport. If sufficient advance notice is given the sale manager or the manager of Melbourne Farm, trains will be met in Aurora and planes at O'Hare. Limousine service is available from O'Hare directly to Aurora on a frequent schedule.

**SALE HEADQUARTERS** — The Ramada Inn, 2450 Farnsworth Ave., Aurora, Ill. Located at the Farnsworth Avenue exit from the East-West tollway. Make reservations direct from the postcard enclosed.

**SHOW RIGHTS** — Show rights will be retained on some of the sale cattle through the National Western Livestock Show. Announcements will be made on sale day.

**DINNER** — Be Melbourne's guest at buffet dinner at the home farm the night before the sale.

**MAIL ORDERS** — Those unable to attend may send buying orders to any of the following reliable men, all of whom will attend, or to the owners.

C. D. Swaffar, secretary, American Shorthorn Ass'n, 8288 Hascall St., Omaha, Neb.

Harris Simons, The Shorthorn World, 16 S. Locust St., Aurora, Ill.

Neil Orth, The Drovers Journals, 1505 Genesee St., Kansas City, Mo.

Bill Stunkel, The Shorthorn World, 1228 N. Nye Ave., Fremont, Neb.

C. K. Tomson, Harding and Harding, Geneva, Ill.

Malcolm B. Tucker, The Prairie Farmer, Chrisman, Ill.

Gene McDonald, The Shorthorn World, 16 S. Locust St., Aurora, Ill.

Forrest Bassford, The Western Livestock Journal, 326 Exchange Building, Denver, Colo.

**AUCTIONEER** — Merrill Anderson, Broadlands, Ill.

**INSURANCE** — Will be available from the clerks.

**HARRIS SIMONS, Sale Manager**

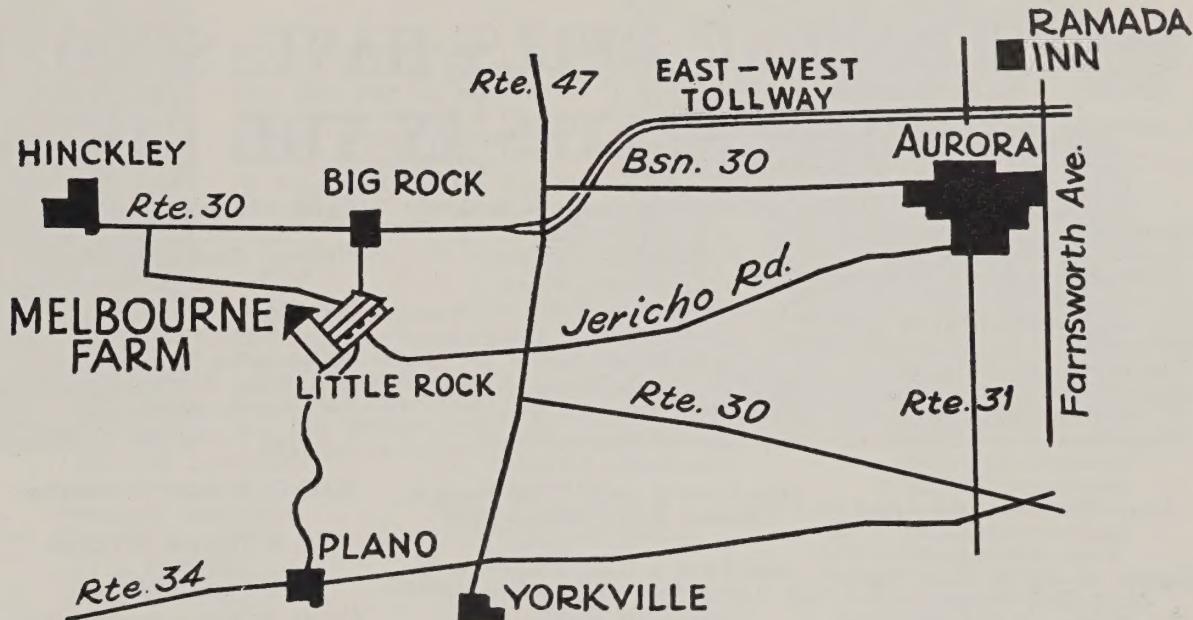

16 S. Locust St., Aurora, Illinois 60506

Tel: (312) 896-8511

# All Roads Lead to Melbourne

Those driving from the east should take the major toll roads by-passing Chicago. They connect with the East-West tollway. Follow that to its end at Route 47. Proceed south on Route 47 about two miles to Jericho Road and then travel west to the farm. The Ramada Inn, sale headquarters, is at the junction of Farnsworth Avenue and the tollway.

Those coming from the west may take Route 30 to Big Rock or Interstate 80 (not shown) which intersects Route Ill. 47 about 30 miles south of the farm.

## We'll Meet Your Train or Plane

Melbourne is about an hour's drive via the Tri-State and East-West tollways from O'Hare International airport. It is also only a 15 minute drive west of Aurora, Ill. Aurora is on the main line of the C B & Q railroad with direct trains from Minneapolis, Omaha, Denver and Kansas City. Other train passengers should go to Chicago from which rapid suburban service is available hourly to Aurora.

If sufficient advance notice is given the sale manager or the manager of Melbourne Farm, trains will be met in Aurora and planes at O'Hare. Limousine service is available from O'Hare to the Holiday Inn.

## Plan on Dinner

Mr. and Mrs. John Alexander and the entire staff of Melbourne Farm invite you to be their guests at buffet dinner at the home farm the night before the sale.

# THE PROGRESSIVE PATTERN OF THE BIG JIMS

At the 1969 "Pattern for Progress" type conference held at Melbourne in June, the national committee of the American Short-horn Ass'n recommended the following ten points of emphasis. Compare them with the progressive pattern of the big sons of Remitall Captain Jim.

1. **One type standard. A good show bull should be a profitable commercial and range bull.** We think the sons of Remitall Captain Jim should do well in the show ring. They also have the bred-in ability to perform well in the breeding herd.
2. **Performance and feed efficiency.** The sons of Remitall Captain Jim in 1967 averaged 78 pounds more at a year than the sons of all other bulls used at Melbourne. Their ribeyes averaged 2.08 square inches per 100 pounds of carcass compared to a national average of 1.75 square inches. The Captain Jim sons tested in 1968 are even bigger and heavier.
3. **Structural soundness including more length throughout.** We still have not found a beef bull with more length than Remitall Captain Jim — especially in the rear quarter where length is all-important. This same length of body is evident in the Captain Jim sons and daughters.
4. **Size as associated with growth and frame as well as weight.** These fast-growing Captain Jims more than meet this requirement. Remember, Captain Jim himself was one of the largest two-year-old bulls of modern times. Breeders are now realizing the importance of this early growth that continues well beyond a year.
5. **Growing ability.** This is even more important when growth and gaining ability of the Captain Jims is considered **after** one year of age. They're not the kind that come on strong as calves and then stop at about a year. They go on to become massive and highly efficient cattle.
6. **Muscling.** According to the International Agribusiness Service, the average of all cattle sonoscoped is 1.75 square inches of ribeye per 100 pounds of carcass. The calves by Remitall Captain Jim — both bulls and heifers — average more than 2.00 square inches!
7. **Trimness.** We especially selected Remitall Captain Jim because he was the trimmest big bull we could find. And, he is stamping his get with this vital characteristic.
8. **Overfitting.** No calf by Remitall Captain Jim has ever been barn-raised. All of them have access to all of the roughage they desire. We used to get them fatter, but the success of the Captain Jims raised under these conditions is ample proof that this method is superior.
9. **Record keeping.** Since the first calf by Remitall Captain Jim was born, we have used every available tool and we have kept every possible record. Compared to cattle we have had by other bulls, the results have been superior.
10. **Feeder selection.** Every commercial man that has used Remitall Captain Jim semen, to date, has been so well satisfied he has returned for more. The commercial heifers Captain Jim has sired will have an influence in these herds for years to come.

Each of these sons of Remitall Captain Jim sells this year. From left are, Melbourne Research, Lot 8; Melbourne Panorama, Lot 2, and Melbourne Arlington, Lot 1B.

# REMITALL CAPTAIN JIM

It's a fact . . . Remitall Captain Jim is the bull that is changing the thinking of the Shorthorn industry. He's big . . . his calves are big . . . and he'll go down in history as the bull that started the trend back to the big, strong, well-muscled cattle that made the breed's reputation a century ago and more.

Here's the proof:

22 sons average 80 pounds more at weaning than the bulls by other sires at Melbourne.

At one year his sons average 74 pounds more.

His daughters average 50 pounds more at weaning.

At one year his daughters average 72 pounds more.

At the recent "Pattern for Progress" type conference, it was the sons and daughters of Remitall Captain Jim that were chosen to head every class as the kind most nearly approaching the modern type.

And they're well-muscled. The national average of all cattle sonscoped by the International Agribusiness Service is 1.75 square inches of ribeye per 100 pounds of carcass. All of the Captain Jims — both bulls and females — average 2.08 square inches!

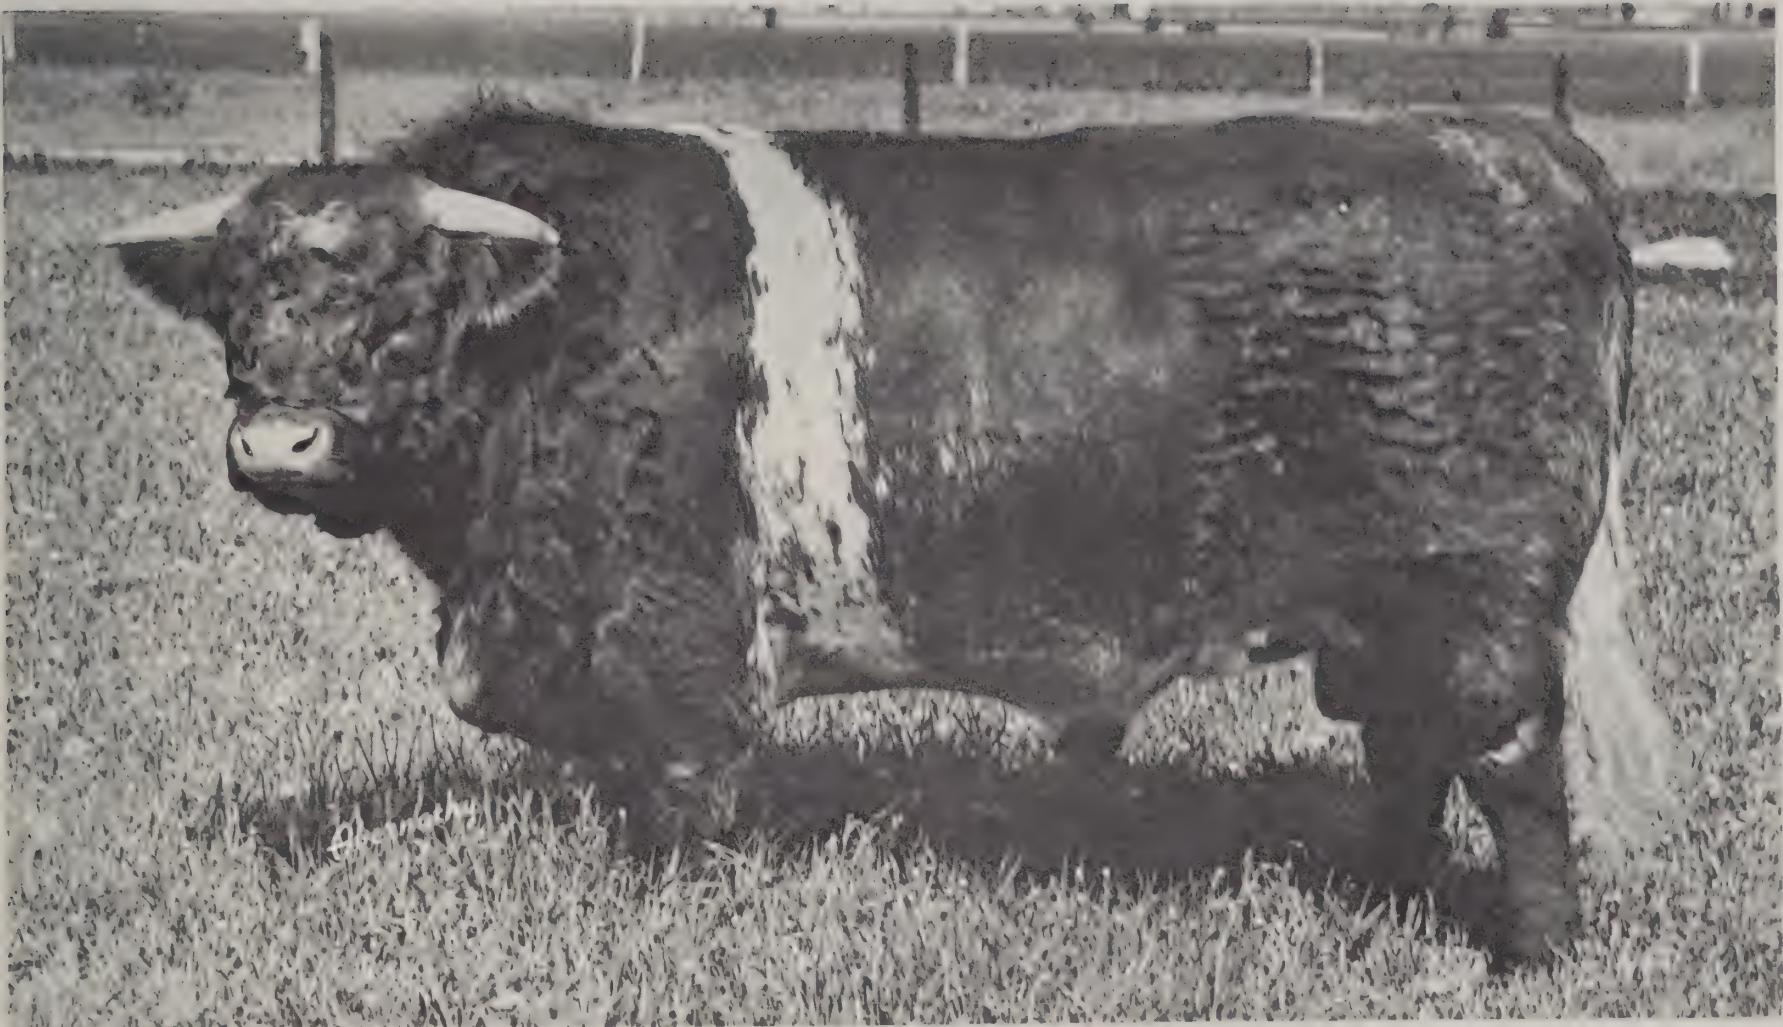

They're well-accepted. The first sons of Remitall Captain Jim led off the 1968 Melbourne sale at an average of \$1,740. To date all of his daughters have been retained and the first are now dropping calves by Remitall Gold Emblem. For the first time, Captain Jim daughters will be offered at Melbourne this year.

Then study the heritage behind Remitall Captain Jim. Kelburn Great Event blazed a trail across the continent as a sire for Remitall Cattle Co. and KC Shorthorns. It's a record studded with champions, All-Americans and top-sellers. But most important, it's a record filled with sons heading leading herds throughout the country.

Rannoch Costly Lily 120th is truly one of the breed's great cows. She has produced four full brothers: Captain Jim; The \$8,100 Remitall Gold Emblem, also in service at Melbourne; The \$3,500 Remitall Baronet 2nd, grand champion at Denver, and Remitall Triumphant, in service for Tom Hawkins, Hollister, Calif. In addition, a full sister to these bulls is retained at Remitall. In 1968 she had twin bulls by Remitall Belvidere 2nd. One sold at \$2,500 to Walter Brothers, Grand Ridge, Ill., and the other at \$2,575 to Kent Christensen, Shelley, Idaho. She is now nursing another great young bull calf.

The consistency on both sides of Captain Jim's pedigree is another indication of his value as a sire. To further examine his background, Rannoch Contribution was twice first-prize at the Royal Winter Fair and both times a member of the best pair of bulls. Pittodrie Fortune was first at Perth where he sold for \$10,000 to T. G. Hamilton, Innisfail, Alta. Costly Lily 17th sold for \$1,650 in the Sni-A-Bar Dispersion and the dam of Costly Lily in the fifth generation was a member of the original Melbourne herd in the 1920's. Kinsman's three sons averaged \$4,662 at Perth in 1952 and scored a lifetime average of \$2,247. They were noted for exceptional size and scale.

All the words in the world can never fully convince you that Captain Jim is a sire that should be considered in your breeding program. You must see the calves and the bull to fully appreciate the job he is doing.

## REMITALL GOLD EMBLEM – Full Brother to Remitall Captain Jim

Remitall Gold Emblem on pasture at Melbourne Farm with manager Paul Potter.

**R**emitall Captain Jim and Remitall Gold Emblem are full brothers. Emblem is being used with daughters of Captain Jim in the Melbourne herd. Here's why:

It has been apparent for some time that many of today's beef cattle — Shorthorns as well as other breeds — lack the growth factor necessary to satisfy the needs of the commercial cowman and feeder. While many bulls will weigh well at 12 months, too often they do not continue that growth rate in the second year of their lives. In other words, although their weaning and yearling

rates may be great, they do not have the bred-in growth factor to continue on to be ton bulls. They're quitters.

Further, many of our larger bulls and cows have produced cattle that failed to match the size of their parents, indicating a lack of growing ability in their genetic make-up. If the breed is to expand and grow, we must produce bulls and females with size and quality or the cowman will go to bulls of other breeds.

Remitall Captain Jim was the best big bull we could find in 1966. We were familiar with his massive full brothers and the great job they were doing for others. We risked being ahead of the trend in our own area by buying this massive bull that weighed nearly a ton at two years. He has fulfilled our expectations with a high quality group of calves that are far heavier at all ages than any of the calves by other bulls used here. Two of the first were grand champion and reserve junior champion females at the 1968 Illinois State Fair where all the Captain Jims were well accepted.

When we saw Remitall Gold Emblem in December 1967, we thought he was the best bull we had seen for sale and began considering the possibility of following the first bull with his full brother. Both had the same size, stretch and growing ability.

While both bulls are bred alike, Gold Emblem has some qualities we felt we needed to accentuate without loosing any of the gains we had made with Remitall Captain Jim. When Gold Emblem lived up to his promise and was made grand champion of the 1968 Canadian International Bull Sale, we felt \$8,100 was a very reasonable price to pay for a bull that could do so much for us.

Today the proof is in. The first Gold Emblem calves are here both from the historic Melbourne brood cows and from the oldest daughters of Remitall Captain Jim. They're all we could ask and we'll show them off with pride sale weekend.

## Melbourne Sonoscoped Its Bulls for You

Dr. R. H. White, International Agribusiness Service, sonoscoping the bulls at Melbourne.

Again this year Melbourne has sonoscoped each of the bulls selling with Dr. R. H. White of the International Agribusiness Service.

All the sons of Remitall Captain Jim sonoscoped in the last two years, averaged 2.08 square inches of ribeye per 100 pounds of carcass with .3 inch of actual fat thickness over the 13th rib.

In Dr. White's research across the country, the average ribeye for all cattle he had evaluated is only 1.75 square inches. He adds that any reading of two square inches of ribeye or more is considered excellent. **The average of the Melbourne Captain Jims exceeds the "excellent" rating.**

In a day when the entire industry demands bigger, longer, leaner cattle, muscling and cutability are uppermost. We urge you to study the information available on each of the Captain Jim sons and compare it to any others you'll find anywhere. It is one more tool available to you in selecting a Melbourne bull to help your herd fit the progressive pattern of the future.

**Lead out  
the one  
you like best!**

Take your pick of the three best bulls  
ever produced at Melbourne!

You choose. We can't decide!

Melbourne Cornerstone, Melbourne Arlington and Melbourne Ringmaster are all the type we would like to follow their sire at Melbourne. Each is out of an outstanding cow. Each dam is a good milker. Each bull has the size, growing ability and muscling to more than fulfill the requirements of modern beef type.

All three will be lead into the ring September 8. At the conclusion of the bidding, the buyer will make his choice with Melbourne retaining a one-third semen interest and show rights through the 1970 National Western Stock Show in Denver.

One of these bulls will eventually become stock bull at Melbourne. Will he be yours as well?

**MELBOURNE  
RINGMASTER**

MELBOURNE CORNERSTONE — Long, smooth, thick-quartered and well-muscled, he's out of a grand cow that produced the \$7,700 Melbourne Consort, used at Bilmar Farms, Durand, Mich., whose daughter produced a good calf selling, Melbourne Confidence. She also produced Melbourne Jane Clare, sold to George H. Miller, Thomaston, Ga. The younger full brother to Cornerstone, Melbourne Castleton, looks fully as promising. If you want cattle to grow, stay smooth and maintain good feet and legs, Cornerstone has the heritability and individuality to fill the order. **He weighed 1,550 pounds on May 21; had an adjusted 205-day weight of 611 pounds; and an adjusted 365-day weight of 932 pounds. Sonoray of fat thickness of .67 inch, and a ribeye of 1.93 square inches per 100 pounds of carcass.**

MELBOURNE ARLINGTON — You'll find only the best on both sides of his pedigree. He combines the "elevation" of Remitall Captain Jim with the breed character of his International reserve grand champion dam. From both sides he gets the length, muscling, and quarter needed in modern Shorthorns. This was the bull used in the "Pattern for Progress" type clinic held at Melbourne and he was a favorite with the breeders attending that day. Reford Gardhouse, Aberfeldy, Milton, Ont., purchased the first calf out of his dam in our 1968 sale. Melbourne Augusta Marie has the oldest Remitall Gold Emblem calf at foot now. **Arlington weighed 1,130 pounds on May 21; had an adjusted 205-day weight of 531 pounds; and an adjusted 365-day weight of 1,000 pounds.** Sonoray of fat thickness of .29 inch, and a ribeye of 1.98 square inches per 100 pounds of carcass.

MELBOURNE RINGMASTER — His dam produced long and well for us and is now gone but three daughters remain in the herd. This family has produced good cattle in every generation. This is the heaviest bull at yearling age we have produced by Remitall Captain Jim, and he has improved every day since he was born. Melbourne Conclusion, used by Earl Burrus in Nebraska; Melbourne Revolution used at Melbourne; and Melbourne Renown used by Bob Crockett in Kansas were all out of this cow. We like him and we think you will too. **He weighed 1,070 pounds on May 21; had an adjusted 205-day weight of 587 pounds; and an adjusted 365-day weight of 1,050 pounds. Sonoray of fat thickness of .30 inch, and a ribeye of 2.01 square inches per 100 lbs. of carcass.**

One of the most valuable brood cows in the Melbourne herd is the imported Lawton Princess Pippa, the dam of Lot 2. She also sells in a special feature as Lot 19.

\$1700 Redline Farms

MELBOURNE PANORAMA — He proves it is possible to breed one both thick and long-bodied. Always at the top in weight of our yearling bulls, he has good bone and sound feet. His dam is one of the sale attractions. A glance at her footnote will tell you this bull is no accident. He's got muscle and meat in all the right places. He weighed 1,155 pounds on May 21; had an adjusted 205-day weight of 607 pounds; and an adjusted 365-day weight of 981 pounds. Sonoray of fat thickness of .34 inch, and a ribeye of 1.97 square inches per 100 pounds of carcass..

MELBOURNE PANORAMA, Lot 2.

MELBOURNE REFEREE, Lot 3.

This is Melbourne Rosebud, the granddam of Melbourne Referee, the day she became the first AAA cow in the United States.

\$850 Darrell Stck

MELBOURNE REFEREE — This calf was well accepted by the members of the "Pattern for Progress" type committee. He is one of those that improves each day. His granddam was the first AAA cow in the United States, and his dam was an even better cow! One of the best bulls sold in the 1964 sale was Melbourne Reliance, out of the same cow. This is one of our favorites, and he could well be one of yours, too. He weighed 950 pounds on May 21; had an adjusted 205-day weight of 551 pounds; and an adjusted 365-day weight of 985 pounds. Sonoray of fat thickness of .27 inch, and a ribeye of 1.87 square inches per 100 pounds of carcass.

**MELBOURNE MASONITE, Lot 5.**

\$1000 Overhouse & Sons, Malcott, Ia.

MELBOURNE MASONITE — This is the calf that attracted so much attention at last year's sale when his full brother, Melbourne Diamond Jim, topped the sale to Meierotto Bros., West Point, Iowa, where he has continued to grow and lengthen into a very modern, young stock bull. Not many International grand champion females have the production record of his dam, Melbourne Missie, or of his granddam, S & T Missie. She is still, at eleven years, the same great cow she was as a five year-old. With this background, this calf will be a breeding bull and he'll always have this great inheritance. He weighed 1,020 pounds on May 21; had an adjusted 205-day weight of 549 pounds; and an adjusted 365-day weight of 931 pounds. Sonoray of fat thickness of .30 inch, and a ribeye of 1.89 square inches per 100 pounds of carcass.

From left are, Melbourne Diamond Jim that topped the 1968 sale of Meierotto Bros., West Point, Iowa, his dam, the International grand champion Melbourne Missie; and his full brother Melbourne Masonite, that this year sells as Lot 5.

This is an unretouched snapshot of Melbourne President on pasture at Melbourne Farm in April.

\$610 Jm. Fulton, Jr.

MELBOURNE PRESIDENT — A soggy calf, he has the license to be a good, big breeding bull. His dam is by the 1955 International grand champion, Leveldale Critic. His granddam was Princess charming the grand old imported cow that produced Leveldale Peerless, Leveldale Prodigy, and two All-American heifers for us. Melbourne Princeton, a full brother, sold privately in 1968 to Herzfeld Bros., River Falls, Wis., where he has developed into a bull nearly as big as his sire. This calf has surprised all who have seen him for his size and maturity. We think he has more muscle than any bull we have produced. His actual weight at 242-days was 710 pounds.

MELBOURNE PRESIDENT, Lot 6.

MELBOURNE LIBERATOR, Lot 7.

\$17.00 Am. Chapman, Bethel, Me

MELBOURNE LIBERATOR — When Remitall Gold Emblem was a little slow to go to work, we kept the best bull we had from the 1967 crop to breed to the first of the Remitall Captain Jim heifers. This is the bull, and his calves are very pleasing. One of Calrossie Diamond's best sons, he is out of a rapid producing cow that has had nine calves for us, each of them among the best of his year. Four daughters are in the herd. Two more have been sold. Her 1969 bull calf by Remitall Captain Jim is among our very best. If you like good heads, lots of bone, length of body, and good sound feet and legs, you will like Melbourne Liberator. He was reserve grand champion at the 1968 Illinois State Fair and is now ready to go out and do a good job for his new owner. **Blood typed for artificial insemination purposes. He weighed 1,525 pounds on May 21; had an adjusted 205-day weight of 548 pounds; and an adjusted 365-day weight of 925 pounds. Sonoray of fat thickness of .3 inch, and a ribeye of 2.20 square inches per 100 pounds of carcass.**

MELBOURNE MARINER, Lot 12.

MELBOURNE JUSTICE, Lot 13.

\$450 Scherer - m order

MELBOURNE JUSTICE — His sire, Melbourne Pemberton, was kept back a year for herd bull insurance, and then topped the 1967 sale, going to Glen Woodward, Yorkville, Ill. His calves there are very good. The dam of Melbourne Justice is the young daughter of Moy Legend, AAA, that also sells in this sale. He weighed 965 pounds on May 21; had an adjusted 205-day weight of 439 pounds; and an adjusted 365-day weight of 813 pounds. Sonoray of fat thickness of .27 inch, and a ribeye of 2.08 square inches per 100 pounds of carcass.

Left — Melbourne Rosebud 20th was one of the first daughters of Remitall Captain Jim to be shown. She was reserve junior champion of the 1968 Illinois State Fair and an All-American. See her at Melbourne sale weekend.

Right—From left are Melbourne Mona Crocus 2nd, Lot 14, and Melbourne Rothes Queen 28th, Lot 15. They are the first two daughters of Remitall Captain Jim to sell.

## FOR THE FIRST TIME YOU CAN BUY DAUGHTERS of REMITALL CAPTAIN JIM!

The Melbourne breeding program wisely calls for retaining as many of the daughters of Remitall Captain Jim as possible to breed to the massive Remitall Gold Emblem.

Accordingly, until now every Captain Jim daughter has been retained. Only a very few are in the hands of others and they all sold in dam in previous Melbourne sales.

Today, the oldest Captain Jim daughters at Melbourne are two-year-olds dropping their first calves. They were acclaimed for their great size, length and muscling at

the recent "Pattern for Progress" type clinic where every top-placing female was a Captain Jim daughter.

Now, for the first time, you can choose a Captain Jim daughter for your foundation. Five are offered in this rare first opportunity. They represent the breed's oldest and most reliable families. Each has the added size-with-quality so typical of the Captain Jim females that will make up a large portion of the future Melbourne cow herd.

Some far-sighted breeder would be well-advised to buy all five. Think what a herd nucleus they would form!

Lot 14, Female

John Alexander &amp; Sons

MELBOURNE MONA CROCUS 2nd 3371-821

MELBOURNE MONA CROCUS 2nd — This beautiful dark red daughter of Remitall Captain Jim could help write breed history for her new owners. Her dam is by the 1959 International grand champion, Leveldale Princeps. He was among the first of the popular big bulls, with great soundness. Her granddam is also the dam of Elmcrest Diadem, the 1961 International junior champion. With Leveldale Princeps, Elmcrest Diadem was a great sire in Dr. A. H. Weiland's Elmcrest herd. This little beauty sells open, and is easily one of the best we have ever offered.

MELBOURNE BROADHOOKS 3d — Here is the cross that many breeders have been asking us to sell. She's a daughter of Remitall Captain Jim out of a cow by the champion, Leveldade Princeps. She's bred since Feb. 6, 1969, to Remitall Gold Emblem. This calf will have three great bulls in the top of its pedigree — bulls with size, length, and soundness. Her dam is one of the sale attractions.

From left are, Melbourne Broadhooks 3rd, Lot 17, and Melbourne Gipsy Belle, Lot 16, both are by Remitall Captain Jim and both are bred to Remitall Gold Emblem.

Calrossie Augusta Trilby is the only white cow ever imported from Scotland by Les Mathers. She is the dam of Lot 18.

\$475 Stanley Harper

MEL AUGUSTA TRILBY 3d — Take your choice of these open heifers by Remitall Captain Jim, and you won't be far wrong. Trilby's dam sold in the 1968 sale to Joe Pohlman, Galveston, Ind. Her granddam is still working in the herd. Calrossie Augusta Trilby has produced many top stock bulls, including Leveldale Annuity that produced so well for Inness Farms, Galesburg, Ill. and Melbourne Accolade, the 1967 International junior champion siring the best calves ever in the Loren Davis herd, Big Rock, Ill. Sells open.

Lot 18, <sup>X</sup> Female

All three of these daughters of Remitall Captain Jim sell September 8. From left are, Melbourne Augusta Trilby 3rd, Lot 18; Melbourne Mona Crocus, Lot 14, and Melbourne Rothes Queen 28th, Lot 15.

LAWTON PRINCESS PIPPA, Lot 19.

**LAWTON PRINCESS PIPPA** — Cows of this caliber are seldom found, and almost never offered for sale. She produced a good heifer sold to William Hoewischer in Ohio in our 1965 sale. Then came Melbourne Prestwick sold to the Richard King Family of Indiana in the 1966 sale. Her daughter topped the 1967 sale going to Dr. A. H. Weiland, Pawnee, Ill. One of the features of this sale is Melbourne Panorama, her 1968 son by Remitall Captain Jim. She has a white bull calf, born April 22, 1969, by Remitall Captain Jim that is the biggest framed bull calf ever born at Melbourne. He will remain here until we can realize the great potential from him. Princess Pippa will sell bred to Remitall Gold Emblem. One calf from this cow will prove she is one of the best investments you could make in the Shorthorn business.

\$675  
A. M. Scherer, Mex

**Left — Shore Acres Premium by Basildon Premium was reserve grand champion at the 1964 Illinois State Fair and American Royal and first in class at the International. Four of his daughters sell.**

**Right — Melbourne Nominee by Remitall Captain Jim was second top bull of the 1968 Melbourne sale when he sold to Shore Acres Farm. He is out of Melbourne Nonpareil D by Calrossie Diamond. He is the service sire of the Shore Acres females.**

## **SHORE ACRES: Where Honesty and Integrity Come First**

Roy Arnold himself wrote in the 1954 Herd Bull Number of The Shorthorn World: "Every honest transaction and every fair and cheerful adjustment of an honest claim under our guarantee not only enhances the reputation of the individual breeder, but also adds to the good reputation of the breed. Such a breeder becomes known as a "Builder of the Breed," and his name is sought in, and adds to the quality of, any pedigree. No passing victory, no temporary advantage can possibly be worth the loss of integrity. Any breeder whose name appears in a pedigree will be known by his acts, which directly affect not only the pedigree but also the value of the animal irrespective of its merits."

For 35 years Shore Acres has stood for these principles

and their cattle have reflected them. They have done well for everyone who has owned them.

Today, following Melbourne Basis and Shore Acres Premium, is the massive Melbourne Nominee, one of the first sons of Remitall Captain Jim. This is one more step in the careful breeding program at Shore Acres and assures them a place in the future with modern cattle of size with quality.

Today Shore Acres is operated jointly by Roy Arnold and Lyle Brooks, both previously honored as "Builders of the Breed." The knowledge and astute management evident in both of these men is also being developed in Lyle's son, Arnie, who plays an active role in the herd.

\$5.00

Fulton

**Wernacres Adonis** is retained for service in the Wernicke herd. He is perhaps the best son born to date of the International reserve grand champion Melbourne Augustine.

**Royal Tartan General** by Calrossie Scottish Soldier is senior stock bull at Wernacres. He weighed 995 pounds at 12 months.

## **WERNACRES: Where Shorthorns Have Been Good Since 1918**

Since 1918 Shorthorns have been good at Wernacres . . . and they've been steadily improved each year. That this herd has maintained its reputation for fair-dealing and a high standard of excellence in the cattle is a glowing tribute to the men who planned, saved, sweated and rejoiced at the ups and downs of those 51 years.

Not long after its founding, the entire herd was wiped out by foot and mouth disease, a blow that would have finished lesser men. From that dark day, there have been countless triumphs like showing five consecutive champion and/or top-selling bulls at the Illinois State Shorthorn Sale.

The herd was founded by the late Henry Wernicke. Now it's Louis and his son, Dale, who are at the helm. Louis serves his breed as director of the American Shorthorn Ass'n and was formerly honored as a "Builder of the Breed." They are sound cattlemen who know what it takes for a cow to live a productive life, reproduce her own top form and to make money.

The International reserve grand champion Melbourne Augustine was used in the herd with great success and four of his daughters sell in their draft to the Melbourne sale. Augustine is followed by Royal Tartan General and his best son, Wernacres Adonis. These are bulls that were selected for their size-with-quality, their length and muscling. Surely they are destined to take Wernacres one step further up the ladder of sound, breed achievement.

Melbourne Augustine by the \$35,000 Leveldale Basis was International reserve grand champion before going into service at Wernacres. Four of his daughters sell in their consignment.

**Burnton Reward by Beaufort Graduate is senior stock bull at Prairie Creek and is one of the last stock bulls to be imported from Scotland.**

**PRAIRIE CREEK BUTTERFLY 3rd sells as Lot 39.**

## **PRAIRIE CREEK: A Leading Source For Females**

Few small herds anywhere enjoy the success of Prairie Creek owned by J. E. "Mike" Klokkenga. It was founded with purchases from Leveldale itself. Then came several choice imported cows. Then some of the best from North America including females from Melbourne, Elmcrest and others. Accordingly, today the Prairie Creek females are in great demand. In fact, they have twice topped all the females in the Melbourne sale and one sold to Melbourne itself at \$1,800.

There has been a long succession of good bulls at Prairie Creek, most notably the massive Glastullich Red Eagle and the International junior champion Elmcrest Diadem. They are gone today, but in their place is Burnton Reward, one of the last bulls to be imported from Scotland. The first Burnton Reward calves are approaching a year and they prove his ability as a breeding bull. You can acquire his valuable service in the Prairie Creek consignment to this sale.

At Prairie Creek, the Shorthorns are an integral part of a successful farming operation in which the entire family plays an active role. Mike Klokkenga, a "Builder of the Breed," has been president of the Illinois Shorthorn Ass'n. Maxine is active in the national Shorthorn Lassies. Jim and Janice have always worked actively with the cattle and Jim is now a full partner in the operation.

Here's real success built with good Shorthorns and sound farm management. The Prairie Creek females have done well for others and those selling September 8 can do well for you.

P C CLARISSIMA 8th — This red Leveldale Highlander daughter is out of a Glastullich Red Eagle cow we feel has produced quite well for us. She should make a fine addition to any herd. Served April 30 to Burnton Reward.

## And More of the Best from Melbourne

Each year Melbourne makes a practice of selling some of the best proven producers straight from the foundation herd. This can be done only because they are replaced by their daughters by Remitall Captain Jim and Remitall Gold Emblem. All of these sell September 8.

This is the famous Craigeassie Rosewood Peach family at Elmcrest Farm as they appeared on the cover of The Shorthorn World. The young calf is Elmcrest Rosewood Peach 6th that topped the 1966 Elmcrest sale to Melbourne Farm. She sells this year as Lot 45.

ELMCREST ROSEWOOD PEACH 6th — The first two Rosewood Peach females ever offered for sale on this continent went through the Elmcrest sale ring in 1966. They went to Melbourne and John Shuman, Beyers, Colo. The Shuman cow produced the \$4,200 top bull in the Colomeadow sale in 1968. The Melbourne cow has produced three heifers for us. The last one, calved Feb. 22, 1969, by Remitall Captain Jim, will be retained. The cow sells bred since April 13, 1969, to Remitall Gold Emblem.

\$600 Dm. Smithers,  
Pittsfield, Ia.

ELMCREST URY MAID 3d — Length of body is one of the most important elements of the modern type Shorthorn, and this cow is perhaps the longest bodied in the herd. Her dam is one of the best cows ever imported from Scotland. We are proud of this cow and her full sister that we are keeping in the herd. Bred March 10, 1969, to Remitall Captain Jim.

MELBOURNE ROSANNA 10th — This open heifer resulted from mating the 1967 Illinois State Fair junior champion bull with a top daughter of Basildon Premium from one of our best cow families that have all been good milkers. She sells open.

## STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
